(6) Type of construction: arch bridge (sandstone), 4 piers,
5 spans.

(7) State of reconstruction work: Demolished section over the
Goeltzscher brook reconstructed.

(8) No conspicuous adjacent landmarks.

(9) Load capacity: Not reported, 60 tons at least.

(10) See Annex 2.

25X1A

Details on these bridges are reported, since their measurements
exceed those of the usual autobahn bridges.

2 Annexes: 1. Autobahn Bridge across Trieb Brook and Valley
2. Autobahn Bridge across Goeltzscher Brook and Valley
